OTE 87-6704

17 FEB 1987

Director of Training and Education SUBJECT: Training for New DS&T Employees REFERENCE: Your Memo for D/OTE dtd. 3 Feb 87; Same Subject 1. We certainly agree with you that anything that enhances contacts across directorate lines is worthwhile, and therefore concur in your suggestion that we try including a few DS&T analysts in the New Analyst Course. The next couple of runnings of that course are fully booked, however, so it will be early summer at least before we can give it a try. 2. One thing that concerns me with this approach is that your new employees that go through the course will gain a good grounding in the DI's mission but very little on life in the DS&T. We will work with to find a way to make up this deficit.	VIA:	Deputy Director for Administration
